The Athlete's Requirements Evaluation System SCUAA III for Ramon Magsaysay Technological University  
**ABSTRACT**

This study was intended for the use of Ramon Magsaysay Technological University. The Athlete's Requirements Evaluation System SCUAA III for RMTU provides registration and profiling of the interested athlete. The system provides lists of sports and requirements to be able to comply by the athlete. The system also has an account for new user aside from the administrator.

A combination of descriptive and analytical research design is used in this study. Also a combination of quantitative and qualitative measurements will be engaged in this study as data gathering proceedings be treated. The respondents of the Athlete's Requirements Evaluation System SCUAA III for RMTU are the University Sports Officials, Coaches and Athlete aspirants. There were seventy (70) respondents of the study. Interview, questionnaire, books and internet were used as research instrument and the data gathered were computed and interpreted with the use of statistical tool such weighted mean and likert scale.

The Athlete's Requirements Perception System SCUAA III for Ramon Magsaysay Technological University was Excellent in terms of software quality based on the perception of the system experts. The system was also Moderately Efficient in terms of the level of efficiency and was Acceptable in the perception of the system experts and user respondents. The proposed system will provide convenience to the Sport personnel and aspirants to have a requirements evaluation system.

## COLLEGE OF COMMUNICATION AND INFORMATION TECHNOLOGY

The Athlete's Requirements Perception System SCUAA III for Ramon Magsaysay Technological University may be implemented in the university to test the effectiveness of the study. If possible the system may have internet subscription and image format may extend in other format not just ping.
